

## Special Interest Groups

Special Interest Groups are up and running this year, with a number of new groups being added to the list of offerings. FTM and RootsMagic have been added to 2022 list of choices.

Presently the choices are:

Convict ancestors

Ancestry users

Military ancestors

Scottish ancestors

Irish ancestors

DNA

Legacy users

Family History Research

English ancestors

Scrapbooking.

Family Tree Maker users and

Roots magic users.

While one group has only one or two members that come for one or two sessions to resolve their brick walls, most groups attract six or more members to each session. To date they are fulfilling a need and members are responding positively.

I must say a big thank you to the various facilitators for their generosity in giving of themselves and their time to facilitate these groups for the benefit of members.

Pat
