

Facebook Report – June 2022

Our NFHS Closed Facebook Group is running along much the same as always. We have approximately 1800 members many of whom post and comment regularly.

It is an excellent way to keep members up to date with what is going on at the Society and to advertise special events as well as sharing items of local, national and international interest in the areas of history and family history.

The three administrators keep in contact with one another via a private chat line. We confer with one another on matters such as member applications or situations which might have been brought to our attention. A joint decision is always made in these cases.

We rarely encounter posts or comments of any concern. The group is a pleasure to administer.

Mel Woodford

Facebook Administrator.
