

## **Website Report – June 2022**

Our NFHS subscription with Wix was due to end in May. This provided a good opportunity to convert to a Wordpress site which is now being hosted at Elementor Cloud. Wordpress has many extra features and is more user-friendly for a comparable price.

Much of the content from the Wix site was transferred to the new site but we can now take advantage of the features that Wordpress and Elementor offer.

Currently, a draft Woo Commerce shop is being set up which will enable the Society to sell publications online. This will be presented to the Management Committee for appraisal once the IT Officer and other technically minded members have been consulted.

Glenn Matthews

Webmaster.
