

Orientation Sessions Quarterly Report, September 2023.

Orientation sessions have now been planned to accommodate the recent influx of new members, which is very gratifying to everyone in the Society.

The organisation is slightly different from usual, in that in October there will be two Print sessions and one Digital session. This comes about because of the numbers restrictions in the Monica Gibbs Library – hence, a group of 8 will be invited to each Print session and at least those 16 will be invited to the Digital session.

One session of each is now also scheduled for November.

It is hoped that these sessions will accommodate all the new members so that they can get maximum benefit from them before the December – January closure of the library. If necessary, extra sessions might be added in November.

These dates will appear in the October Newsletter and invitations will be sent to the members very soon.

We would like to acknowledge the Membership Registrar's involvement in this process, in alerting us to the new members who wish to take part in the sessions, thus allowing the Society to offer them this help in understanding the library and how much we can offer them.

This plan of dates has been agreed to by the usual group leaders – Jim, Margaret and Mel.

Thank you
Margaret Ashford
