

Facebook Group Report

Our closed Facebook group continues to grow in size. It is a busy group with many members contributing to the posts & comments. We very rarely experience any problems with members. They are generally pleasant, courteous & supportive towards one another.

We monitor new members carefully but occasionally we discover someone inappropriate in the group as happened earlier this week. It was obvious that a new member was trying to elicit negative comments from other group members (who failed to engage). The admin team agreed that it was best to remove & ban the offending person for the general safety of the group as their Facebook account & friends were discovered to be bogus.

The Facebook group is an excellent way to keep members abreast of Society events & happenings.

Mel Woodford

Admin.
