

Sandgate Planning Group Quarterly Report Marh 2024

The group is about to start the serious planning for the annual tour on Sunday May 19.

We are in a reasonably good position as we can use the materials prepared for the Primitive Methodist tour in 2022.

Things will be different now that we are working with Metropolitan Memorial Parks rather than Northern Cemeteries, as we work our way through our preparations, bearing in mind the Memorandum of Understanding elements involved.

We have always done our own printing of the draft materials and the Guides' Handbooks at the Society's cost but that will now be assigned to MMP. We will probably therefore get them printed at Officeworks and invoice MMP. That will mean less volunteer time at the printer, less toner used, less wear and tear fewer print numbers pushing the Society into higher-cost section of CBTech's fee structure, especially at this time of 2024 when some major publications will need to be printed.

Webmaster Glen has agreed to set up on-line registration for us; I will be contacting him soon to get that underway.

We are looking forward enthusiastically to the tour day and already have several new members of the group willing to be tour guides.

Thank you

Margaret Ashford
Group Coordinator
